

# BIOMETRIX CPT

## Custom Procedure Tray for Orthopedics

Biometrix Orthopedic custom procedure tray is comprised of a wide range of single-use high quality medical devices, enabling immediate treatment and facilitating a fast and effective setup, in a completely sterile environment.

Designed to meet customer-specific demands, Biometrix Orthopedic CPT provides a highly reliable and efficient procedure tray, in addition to significantly reducing overall surgical expenses.

- Manage emergency cases quickly and confidently
- Reduce cost and setup time of overall procedures
- Simplify and quicken stocking and restocking
- Minimize cross contamination with sterile single-use products
- Save space and minimize waste with compact packaging

## PRODUCT BENEFITS

*Biometrix offers an extensive choice of high quality components, allowing to create the optimized tray and save your organization time and money.*

You are just a few steps away from your individual user-friendly Biometrix Orthopedics CPT:

- Please select the components of your choice from the product range.
- Review the (non-sterile) sample tray, provided for your convenience.
- Discuss proposal and receive contract offer.
