

Viking™ on Nicolet® EDX

Next-generation hardware continues a dynamic history of high-quality performance

Introducing the Viking On Nicolet EDX Electrodiagnostic System from Nicolet. This unified, multi-modality hardware system features an intuitive, ergonomic platform that sets new standards for performing nerve conduction studies (NCS), electromyography (EMG), Evoked Potential (EP) testing and intra-operative monitoring (IOM).

Designed with input from world-renown neurologists and electrodiagnostic technicians, Viking On Nicolet EDX delivers high-quality testing with a broad range of features that will maximize time and minimize effort. This means less time spent on acquisition, less patient discomfort and maximum diagnostic value. The Viking On Nicolet EDX also provides optional flexibility that suits various practice configurations. Data can transfer from desktop to laptop flawlessly, allowing an optimized workflow from acquisition to final report.

Hardware Features

- Portable or desktop configurations for NCS, EMG and EP exams
- Quality data you can trust
- Customizable reports that fit your practice needs
- Proven workflow for faster exams
- Easily communicates with information systems

Customizing your Nicolet EDX system with Viking Software

The Viking System Software is one of the platforms that operate the Nicolet EDX System. The innovative features developed into the Viking Software focus on improving ease of use and workflow. The software offers a multitude of electrodiagnostic test functionality to provide the flexibility to meet various testing needs.

Proven Technology. Familiar Interface.

Software Features:

- Roll Back, Roll Forward
- Replicate
- Integrated F-Wave and Motor Nerve Conduction
- Signal Enhancer
- Quality Meter and Rate Meter
- Muscle, Nerve, and Electrode Placement References
- Reference Values
- Monitor Trace and Data Export

Exam Options for Viking On Nicolet EDX

Single Fiber EMG

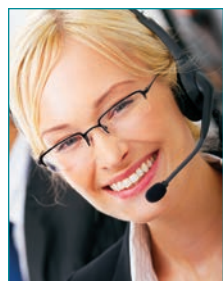

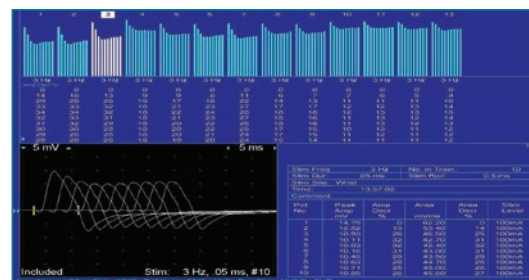

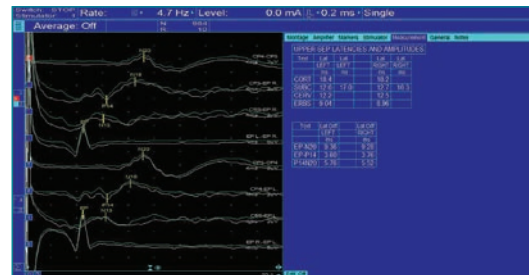

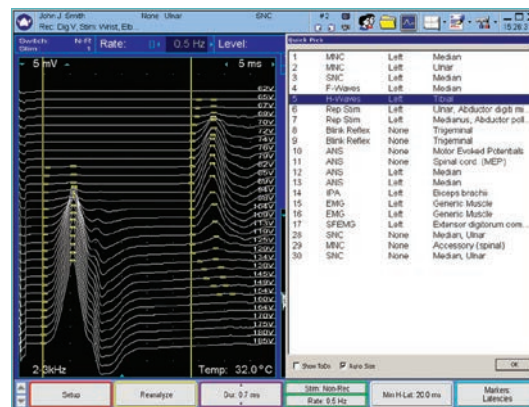

The feature-rich program exhibits premium recording quality together with time-saving acquisition and exceptional analysis.

Nerve Conduction Studies

Convenient features like customized reports and tables optimize reporting ability.

Evoked Potential

Perform EP testing for somatosensory, auditory, motor and cognitive potentials.

Service

Natus Neurology is committed to providing exemplary service to our customers. Our dedicated and experienced Customer Service Team will assist with every aspect of an order. To support our products, we provide factory-trained Field Technicians and Clinical Application Specialists for onsite support. Additionally, we provide an in-house Technical Support Team, staffed with experts, and a strong distribution network in International Markets to offer a wide range of service options. Allowing our customers more time to care for their patients is our goal. Customer loyalty is our reward.

Supplies

Natus Neurology offers a full range of neurodiagnostic accessories and supplies promoting patient comfort. Our dedicated customer service team provides a streamlined order and shipping process to save you time and money.
